 **Oak Green**

About Us

We are a full service construction company. We have offices across the UK and we work in all sectors in the construction market.

Since our formation in 2007 we have steadily grown our client base and have a strong reputation in our field based on our professionalism and dedication to deliver and exceed client expectations.

We work cohesively, with our clients and with each other because we ultimately share the same aims and commitment to deliver quality construction services on time and every time.

Aim

Our aim is to be the number one construction services provider by choice to our markets. We will achieve this through collaborative team work and commitment to deliver and manage tailored solutions to our clients.

Why choose Oak Green?

Client Focus

Our clients are at the heart of everything we do and we achieve customer satisfaction by delivering and exceeding their expectations. We pride ourselves in building a trusting and long term relationship with our clients.

Local knowledge, national reach, professional expertise

Since we have offices and teams based around the UK, we have the local market knowledge, national reach and the expertise to advise and deliver services to our clients.

We are unique

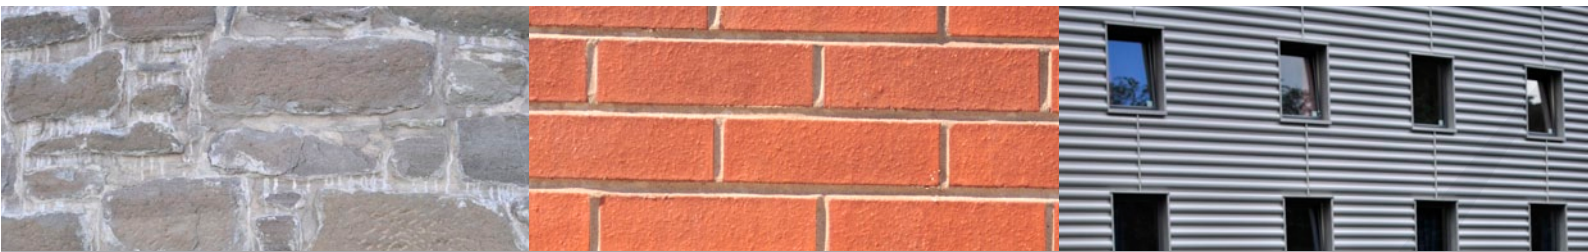

Unlike other local construction companies, we are unique in that we directly employ all of our staff and therefore do not need to sub-contract any of our services. We understand that the success of our company and the quality of service we offer to our clients depend on our people. We choose our people for their 'can do' attitude, and dynamic approach. Our clients will benefit from our flexible and collaborative approach to value added, innovative solutions.

A close-up, vertical view of several parallel steel reinforcement bars (rebar) with a ribbed texture. The bars are dark blue-grey with some rust and orange-brown staining, particularly at the joints and along the length. The lighting is dramatic, highlighting the ridges and valleys of the ribs.

Solutions

Our Services

We are a full service construction company and we provide tailored solutions to all our clients. We stay closely attuned to all their varying needs and aspirations and work in partnership to help transform their project vision into reality.

Our range of our services includes;

Construction

Our construction division can support and lead all types of construction projects from the initial planning stage to delivery and completion. We will be the principle contractor fulfilling all construction needs.

We have construction teams across the UK to ensure each project is achieved on time and to the highest of standards.

Refurbishment

We have an excellent reputation within the refurbishment sector and have a wealth of experience on working in large and small projects including specialized listed buildings work.

Design & Build

Our Design & Build division will take responsibility for all design and construction related matters including specification of materials to include brand standard and operational requirements and securing the requisite statutory approvals to include planning permission and building control consent.

client-specific
needs

Market Sectors

At **Oak Green** we work in all sectors of the construction market. Our directly employed team of specialists allow us to assist in a broad portfolio range of sectors including; public, private, industrial, commercial, education, health and leisure sectors.

We are continuing to expand in each sector and have particular strength in the following areas;

Residential

We have extensive experience in delivering projects ranging from bespoke home projects to the construction of multiple apartments and homes on new developments.

Leisure

We are a major provider in the leisure sector and have a diverse range of credentials from designing and building fitness centres, refurbishing sites to golf course construction, shaping and landscaping.

Commercial

We offer our commercial clients a variety of solutions from relocation location projects to reorganising existing offices.

Listed buildings

In this field, we are particularly renowned for our work with listed buildings which includes restoration works, controlled demolition and structural repairs.

Insurance

We provide repair work and reinstatement services to both residential and commercial clients.

Healthcare

We have been involved in large healthcare projects particularly with nursing homes in the design and build function. We will also manage smaller projects such as the design and build of local surgeries.

Industry Associations

The health, safety and welfare of Oak Green employees and all others affected by our operations is very important to our business and in all work that we carry out. We are committed to ensure safety at all stages of any project.
